

South Arm Peninsula Newsletter

June/July

No 4/2011

Thanks:

Many thanks to Lin Thorp and her office staff Debbie, Jenni and Kate for their kindness and extraordinary efforts to get each edition of the Newsletter printed since May 2005.

We are most appreciative of Ald. Heather Chong's offer to 'step into the breach' and print the Newsletter.

Editor

A visual feast is building on the Peninsula

Forget the seafood and pinkeyes, a feast of another sort is developing!

Do you prefer oil paintings, watercolour or charcoal? Or are you in the market for some finely crafted jewellery, glasswork, mosaics or delicately sewn craft? What about a perfect photo of the peninsula coastline? Whatever your artistic inclination, call into

The fourth SOUTH ARM ART & CRAFT EXHIBITION

on Saturday 23rd and Sunday 24th July.

Once again we're raising funds for Legacy Tasmania and raising the profile of the art and craft workers in our area.

There'll also be a number of works by artists who might not live here but certainly show their love of our Peninsula by their works and connections with us. The combination of artists, both professional and hobby, and their wide ranging creations are making for a superb visual display.

Continued Page 6....

Climate Conversation

at South Arm Primary School - 7.30pm, Wednesday July 13th (Free event)

Climate science is under increasing public and political scrutiny, but members of the community rarely have the opportunity to meet and question experts who work in this field. The Climate Conversations are interactive discussions chaired by a panel of climate scientists and associated experts who address this need by providing current information on climate science to interested members of the community.

South Arm Primary School is hosting a Climate Conversation at 7.30pm on Wednesday July 13th featuring scientists who work directly in the field of Antarctic and climate science. All interested members of the community are warmly invited to attend and supper will be provided, free of charge.

There is every chance that you will be able to see and touch a real Antarctic ice core, and you will be able to meet and talk with scientists who study Antarctic ice cores for clues about the earth's climate going back tens and even hundreds of thousands of years. The scientists will give a presentation on the current scientific evidence of climate change and this will be followed by a discussion led by questions from the audience.

SAPRA NEWS

Award from Clarence City Council:

during National Volunteer Week, SAPRA received a Certificate of Appreciation for work done on behalf of the community. Awards aside, we love what we do!

SAPRA donation to Clifton Beach Playground project: we're delighted to be providing funding for a boogie board rider as part of the new playground being built at Clifton Beach. We thought our choice of equipment very appropriate!

Contributions to projects on the Peninsula: if you have a project you're working on and need some help with funding to get it off the ground or finishing touches, please let us know.

Sand mining – last chance to send us your thoughts! Thanks to the gentleman who sent us some feedback after our last newsletter. If you have a view on this issue or any concerns, please email kerry@smsaccounting.com.au or write to SAPRA (Sand Mining), c/- South Arm Store.

Opossum Bay Park: A big thank you to the band of volunteers who look after this Park and have made such a wonderful difference to the park. A big thank you also to our friends at Clarence City Council for their prompt attention to requests for plants and other items to enhance the park.

Trading as mend a house

**For all emergencies ALWAYS CALL 000
do NOT call members of the First Responders or Fire Brigade.
This could result in unnecessary delays and stress for all.**

Peninsula website: SAPRA is working on preliminary plans for a Peninsula website for the whole community to use and access. The scope is very broad ranging at this stage and we will be contacting all local groups and businesses when the plan is further progressed but in the meantime if you have any suggestions, feedback or would like to assist, please email kerry@smsaccounting.com.au or phone on 6248 9302.

The 'Avenue': There have been 220 trees planted between South Arm and Opossum Bay. In just a few years we will be enjoying a variety of coloured blooms and the birds will be arguing noisily over the nectar.

Many thanks to the Council for supplying the trees, stakes and protectors; thanks to John Wiltshire, Paul Champion, Ian Calvert and Roger Davis for helping to dig the holes, the Fire Brigade for filling the holes with water to give the trees a good start; and Lazenby Sand for providing the planting soil.

And thanks to our wonderful community who have come out and planted the trees and have 'adopted' trees so they will be watered over summer. The South Arm School (see Mackenzie Pohl on page 5) and the Sandford Scout group each adopted a group of trees.

Most importantly, thanks to Dick Vaughan for initiating this project to beautify our area.

Clarence Cultural Heritage Advisory Committee: On behalf of SAPRA Maurice Potter is on the committee representing our area. We need your help to get good input into the strategic direction for Clarence Council in the area of cultural history and associated activities and events. See page 6 for more details

Editing the Newsletter: We are looking for someone else to put the Newsletter together as Rae is retiring. The task is fun and not onerous. It would probably require the total of a day's work on the computer every six weeks collating information/articles that people send in. You would need a computer and internet connection. Rae is prepared to continue to the end of the year so you could work with 'trainer wheels' for a couple of months.

Clare and Kate helping to plant the fourth and final stage of the Flowering Red Gum 'avenue'.

Do you love where you live?

What makes our area special is more than just bricks and mortar, it's our sense of community, our independent spirit and our beautiful environment. These things take personal involvement, and yes, a little work.

Landcare/Coastcare are helping your local environment. It is a collaboration with Council and Parks and Wildlife, but we do need more people 'on the ground', people who understand the local issues, sensitivities and take a personal interest in what happens in our environment.

South Arm Coastcare asks only 2 hours of your time a month. We remove environmental weeds, regenerate endemic plants, pick up litter and occasionally run training workshops and now we have a bigger objective, Arm End Reserve. We finally have an Arm End Management Plan (email me and I can send you a copy raecalvert@gotalk.net.au) This may seem like an impossible job, but it's not. The Management Plan suggests small do-able jobs that will add up to big changes. The land basically will stay as grassland while we work on the coastal edges. The two or three big jobs (a field of Boxthorn for example) will be given to contractors using grant monies.

Many thanks to South Arm School, Conservation Volunteers Australia, Friends School and South Arm Coastcare volunteers who have already done a lot of planting. In just a few years you will see a couple of small native 'forests' springing up.

Please help: 2 hours a month, 10am - 12 on the third Sunday in the month. Meet at the entrance to Arm End unless otherwise advised. Email me if you wish to get Coastcare related news now and then raecalvert@gotalk.net.au

Market

Come on folks. Yes it may be cool out, but the South Arm Market is warm with friendship. Lesley our pie lady is going to have an operation shortly, so if you want to put some pies in the freezer, you had better get down to the market and stock up. Many thanks to the Garden Club for supplying vegies and plants.

How are your pumpkins going David, people are looking to make Pumpkin Soup?

See you at the Market.

Community Bus

each Tuesday
0447 139 573

Are you using this great service? Don't take your car to town. Just ring before Friday and you can go to Eastlands, Hobart, Sandy Bay, Glenorchy, and further the following Tuesday for only \$4.

One group of ladies from South Arm booked a group of seats on the bus and went to MONA. Where would you like to go?

We are now including Clifton, Cremorne and Sandford in this great service.

And there's more; if you can get a group of 4 or more, you may be able to book the bus for any day,

EXCEPT WEDNESDAY
when it is committed to another community.

South Arm Primary School

Thank-you
Many thanks to the South Arm Community for your support in the recent Eastland's promotion Canteen Rescue .

Norfolk Islanders

Many of us have a family connection with those who came from Norfolk Island or you have read the stories of these people.

My connection on (my mother's side) goes back to the arrival of Jacob Bellette and his wife Anne and their children, Elizabeth, Jacob, Susannah, Mary, Ann, John, William and James. Elizabeth Bellette married Robert Alomes on the 21st August 1809. Robert was sergeant in the marines who had arrived with Collins and the First Fleet 1803. At first they received a grant of land at Queenborough, later moving to Sorell. Robert & Elizabeth raised eleven children. The fifth child, born 18/12/1827, was George Thomas (my great grandfather) who grew up at Sorell moving to South Arm around 1861 following his marriage to Agnes (nee Musk).

They leased their first land from George Henry Blake Gellibrand and built the home that is now number 12 Blessington Street. The farm named "Rosemount" consisted of 220 acres much of what is known as Oakleigh Subdivision today. The second part of the property was 120 acres between Roaring Beach Road and Fort Direction Road. In 1948 the property was divided between two sons Edward and Leslie Alomes.

The land below Rosemount home was set out with fruit trees - New Yorks and Pears. There was a row of tall black heart cherries about where the Chemist shop is today. A long paling fence ran down from the home to the main road opposite the local store. Above the main road and Jetty Road was a large paddock where they grew wheat and hay. Above that were two sheds and a barn that housed the reaper and binder, ploughs etc. and stables for the horses.

From information passed to me George Alomes was the first to install a corrugated water tank in South Arm. Before that water had been stored in wooden casks and square metal tanks. (Galvanized tanks were first invented in the 1820s in Britain by Henry Palmer, architect and engineer to the London Dock Company.)

Les Alomes built his home on the property now located at 50 Blessington Street. In 1901 Edward (Ted) Alomes built the family home at 65 Roaring Beach Road.

Fruit growing was the main income on farms until 1930's when they turned to mixed farming, sheep, cattle, and the pinkeye potatoes throughout.

Maurice Potter.

South Arm Community Pharmacy is one year old!

Thank you to every-one in the community who has been so welcoming and supportive.

Our first year has flown by and we have had a great time getting to know all of you and helping you with your health. We were honoured to get a mention in the 2010 Piggery production and enjoyed being involved in the South Arm Fun Day and inaugural Australia Day Fun Run. Shane and Kim are training to become 'first responders' and we have helped the RSL source several wheel chairs. The 'Flu clinics were a huge success as was the Bowel Cancer screening program. We will be following this up in the coming weeks with a Hearing Clinic (see below) and you can book in for your Healthy Heart and Diabetes Check anytime.

Overall, we hope you agree it has been a successful first year and we look forward to continuing to grow with the community over the coming years.

Hearing Clinic

Is your partner suffering from selective hearing or is there a real problem? 3.5 million Australians - one in six of our population - have some form of hearing impairment.

The pharmacy will be conducting a **FREE hearing clinic** in conjunction with Maria Brown Hearing Clinics on Thurs 7th July 2011 from 9am until 12noon in our private consultation room. These tests will take about half an hour and **appointments are required.** The tests are suitable for anyone regardless of whether you already have hearing loss or you just want to find out if everything is ok. Phone or call in to book your appointment.

Cremorne Playgroup

We're currently having two weeks break due to school holidays but will be back in full force on Monday 20th June. Due to the chillier mornings we now have a winter operating time from 10am to 12 noon. Our last week before break was messy play with lots of goop, paint and froth out in the sun. For the last week in June (Monday 27th) we'll be celebrating the April, May and June birthdays. Furthermore, we now have our babies' corner set up with big bold cushions for parents to lounge around on and a soft colourful rug with lots of toys for the little ones. If you want to check us out please feel free to just pop in even for a short visit. We have morning tea at 11am. All are welcome.

DIGGITY (mini earthworx)

Pigs are Souls

A big thank you to all cast, crew & volunteers, for all the wonderful support & effort put in by all. Once again we managed to put together another successful show.

Thanks also to our sponsors and of course the audiences who went away, some say with their sides aching! Its great to get feed back like that! We are not sure at this stage how much we have raised this year, but we will let you know in the next newsletter. We hope you enjoyed the show and if you purchased raffle tickets in the Piggery raffle, you still might be lucky, the draw has been postponed until 1st July. The school will be contacting all the lucky winners! Thanks again for helping us raise money for South Arm Primary School.

ROBERT GOYNE ex Sunny

After 25 years as a Real Estate consultant, I know the importance of local knowledge and how to promote the benefits of "Paradise Peninsula". I have helped many hundreds of residents of the area buy, sell, rent or stay and am freely available for queries and questions about Real Estate matters or local services. I continue to do this as a sales consultant for Fall Real Estate.
If you need any services call 62487666, mobile 0458653553 or any Fall office.
4 Howrah Road, Howrah.

South Arm Fire Brigade

Winter is well and truly here again with heaters going flat out. At this time of year the Brigade training concentrates on structural and vehicle fires and the use of Breathing Apparatus.

With most of winter still to come there have already been a number of structural fires around Tasmania over the course of the last month or so, and the last thing anyone wants is more of the same, so please be careful with heaters and make sure your smoke alarms are working. There is plenty of evidence that smoke alarms do save lives, but the batteries need to be changed regularly.

If you want any advice on fire protection for your house or property please contact the Brigade Chief Richard Calvert on 6239 9412, or Second Officer

Barry Heather on 6239 9564.

The brigade is now pretty well at full strength but it would be really good to have just a few more active members, especially more female firefighters, so if you are interested in joining the brigade as a volunteer firefighter or just want to know more about us, please contact the Brigade Captain or come to the Station on any training night.

Training is always the second Tuesday in the month, commencing at 7.30 pm at South Arm Fire Station.

Glynis Heather.
Brigade Secretary,
6239 9564

Mackenzie Pohl watering one of the school's adopted Red Flowering Gums (see page 2)

Pipe Clay Coast Care Group

The group is excited to announce that we have received a Tasmanian Landcare Fund grant to further control African boxthorn, serrated tussock and Paterson's Curse on Calverts Hill reserve and the Crown land reserve leading up to the hill from Cremorne beach. This project will be done in partnership with Parks and Wildlife Services and we are both grateful for the support of Landcare. The funding will be valuable in improving the biodiversity of these areas by controlling these highly invasive weed species. Contact the group if you would like to find out more about this project and how you can be involved. Want to find out more about the work of Landcare? Contact them on 6235 7117 or at www.taslandcare.org.au. Our next working bees are 19th June, 17th July and 21st August or give us a buzz if you want to be involved in other ways.

Jodie 6237 0720

Friends of Calverts Hill

The Friends will be holding a planting working bee on Saturday 2nd July of threatened endemic species *Eucalyptus Morrisbyi* on Calverts Hill at Cremorne/Sandford. Want to help protect this local and rare native? For details contact Oliver at the Understorey network on 0407 784 943 or 6234 4286 or alternatively Jodie at the Pipe Clay Coastcare group on 6237 0720. Many hands make light work – so whatever time you can spare will be of a great help!

Climate Conversation

... continued from front page

The scientists travelling to South Arm for this Climate Conversation work at the Australian Antarctic Division and at the Antarctic Climate and Ecosystems Cooperative Research Centre (ACE CRC) located at the University of Tasmania. They have all conducted field work in Antarctica and are keen to provide current information on climate science to interested members of the community.

The scientists include Tessa Vance, a young glaciologist who analyses ice cores for trace chemicals which provide evidence of past climate signals such as storm activity, marine biological productivity, sea ice variability and past volcanic events. Tessa undertakes field work in Antarctica. In 2008/9 she was part of an ice-coring expedition to Law Dome near Casey Station, where she lived and worked with seven men in a series of tents.

Another of the scientists is Joel Pedro. Joel's research focuses on the use of Antarctic ice cores to understand the causes of past climate changes, including the roles played by changes in solar activity and greenhouse gases. Joel has been a member of ice core drilling campaigns in Antarctica, a long way from the dairy farm in south-west Western Australia where he grew up.

Tas van Ommen grew up in northern Tasmania. Tas is the Principal Research Scientist in charge of the Ice Cores and Climate research group with the Australian Antarctic Division. His main research interests centre on ice core palaeoclimate; in particular work extending back into the last glacial period to provide detailed climate reconstructions and obtain calibrations for ice core data against modern meteorological data. This includes work to develop longer term climate reconstructions for the Australian region, such as his recent work linking high snowfall in Antarctica with drought in south west Western Australia.

Thanks to South Arm Primary School, SAPRA, Clarence City Council, ACE, CRC, AAD and the scientists themselves for making this event possible.

Clarence Cultural Heritage Advisory Committee from p2.

This committee was formed to provide a direction for Clarence Council in the area of cultural history and associated activities and events. They have money to spend on signs, pamphlets, events, etc.

It has a wide scope and covers such things as stories that hold significant cultural/historical value, places, events and objects that reflect cultural memory. They want to develop a framework for the preservation and promotion of the cultural history, encourage the community to participate in local history and to consider ways to develop cultural tourism.

We all know someone who has interesting stories about this area .. ask them to ring Maurice Potter on 6239 9175 or a committee member (page 2).

Maurice will also need a typist to help him. Can you type, would you like to give a small amount of time to this project?

Art and Craft Exhibition

...cont from front page.

With a small number of exceptions, works will be for sale and the 20% commission will be going to Legacy Tasmania who do such important, and often under-estimated, work in our community.

South Arm Primary School and Little Bees Early Learning will also be part of this great event and we look forward to seeing the budding artistic talent of our community on show.

Where and when: South Arm RSL & Community Club: 10am – 4pm
South Arm Primary and Little Bees Early Learning (check posters for times)

Entry cost: Gold coin donation for Legacy.
