## South Arm Primary students get local history project rolling

In the last edition we announced a new South Arm Peninsula history project to better showcase our local stories through 10 pull-up banners. These will be used in rotation in the Maurice Potter History Room (pic below) at the Community Centre as well as displayed at other locations/events.

There were two banner topics prioritised from the outset – our indigenous history and engaging with South Arm Primary School students. We're delighted to be working with respected palawa woman, Theresa Sainty, on the first and Grade 6 students for the second.

The students have lost no time digging into school life in South Arm over the years. Along with their research they'll also be working on banner design components. A big thank you to Principal Stu Warren for his guidance and enthusiasm.

We're excited about what will be uncovered as we delve deeper into material being shared on the South Arm Peninsula History Group Facebook page and sourced from the wider community. There are so many more tales to tell and characters to meet.

**There's a lot of work ahead but it will be a fun journey to discover new stories from the past to the present.**

**Contribute - Collaborate - Participate - Donate**

**How can you help and get involved.....**

**Do you have stories to tell?** Personal, family, community group history.

**Do you have artefacts to share?** Photos, documents, newspaper clippings.

**Do you have skills to offer?** Writing, design, research, history projects.

**Do you have time to offer?** Even a just little bit of your time will help.

If you answer "yes" to any of the above questions we'd love to hear from you!

## SAPRA: in your community

What a stormy, windswept start to spring, though it hasn't stopped nature's calendar with birds nesting, colourful blooms and the feel of warmer times to come.

SAPRA has been busy behind the scenes - running the Centre, working on our history projects and a lot more:

**Raft insurance.** The rafts at South Arm and Opossum Bay have been under our public liability for 14 years but the recent renewal did not include them. QBE advised they should have been covered under a marine policy from the start.

Whilst we've been lucky to be covered to date, it's now impossible to find a new policy. We've requested Council's assistance and awaiting a hopefully positive reply. It won't be summer without these much loved rafts on the water.

**Solar panels.** By the time you read this, there should be sun-loving panels on the Centre's roof, a battery gobbling up the power and a committee excited about directing funds from power bills into other worthwhile activities!

**Emergency Recovery Centre.** Our community needs to be ready for an emergency and we need to plan now. Council will update the existing Centre Response Plan to include other facilities and we'll review it from a community action perspective.

**Your input is important.** If you'd like to help review the plan and/or be part of a recovery response at any level, please get in touch.

**AGM and General Meeting.** 7pm, 12 Nov to be followed by General Meeting. Look for posters and check the website for details coming soon.

**SAPRA Membership.** By joining you show us, Council and others that our community values the hard work volunteers do across SAPRA, the Centre and the Market.

At \$2 per person, it's a bargain! Membership form on P10 or go to [southarm.tas.au/sapra-membership/](http://southarm.tas.au/sapra-membership/)

**Happy 10<sup>th</sup> Birthday** to the Iron Plot Community Garden! See the transition from boring to blooming displayed at the Centre from Market day.

Please get in touch with feedback, issues, or projects you'd like to develop.

### Stevenson Screens Refurbishment

Around the state there are small white louvred boxes, property of the Bureau of Meteorology (BOM). These boxes, called Stevenson Screens, house various weather instruments. The boxes must be identical so as to standardise measurements while allowing air to circulate (via the louvres) around the internal thermometer and protect the instruments from rain and direct sunlight.

Stevenson Screens were first designed by Thomas Stevenson, a Scottish lighthouse designer, and father of Robert Louis Stevenson who wrote *The Strange Case of Dr Jekyll and Mr Hyde*.

The Men's Shed has been assigned by the BoM to expertly restore and repaint the boxes as part of an ongoing refurbishment program after which they return to duty.

### President's Report to the AGM

So much achieved and so much to be proud of! See the full text of President Ian Glover's report on our [Facebook](#) page.

### Men's Shed Membership Gift Voucher

Do you have a family member who is always difficult to buy for at Christmas time? We all do! How about a gift of a Men's Shed membership? Gift vouchers can be purchased at the shed or our market stall. See our [Facebook](#) page for more details including how to enter the "Secret Santa" guessing competition.

### Laser Engraver/Cutter Tuition (for Members)

Members, come along Wednesdays from 4-9pm to learn new skills. If you are not a member, become one and join in!

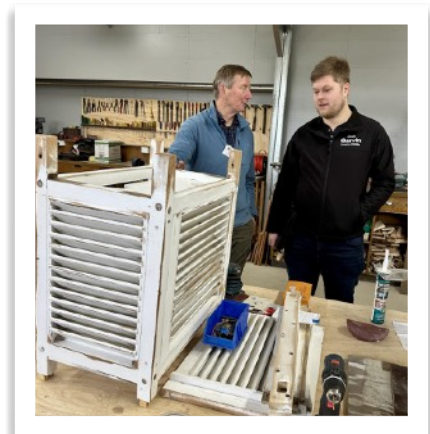

### A Men's Shed Message about a Mens' Health Issue

Prostate Cancer is the most common cancer diagnosed

- more than 25000 Australian men were found to have PC last year and 3700 men died of PC in 2023
- 1 in 6 men will develop PC by the time they are 85 and if you have a family history, the risk is much higher.

The message is start talking to your doctor about it. Do it sooner if you have a family history, and definitely by the age of 40. Early diagnosis makes treatment options much easier to live with. More information at [www.prostate.org.au](http://www.prostate.org.au).

# South Arm Primary School

## 'Our Futures' Workshop 5:00pm Monday 4 November (School Library)

Inspired by the school motto – *Creating Our Futures* – I'm looking forward to holding this community workshop to better understand the opinions and hear the aspirations people hold for the school's future.

Rebuilding student numbers while maintaining a focus on wellbeing for learning remains my core mission. I'd like to know more about what the community hopes to see in terms of student outcomes and the school's identity more broadly.

Current and prospective parents and other community stakeholders are encouraged to attend. After the workshop, I'll use our school [Facebook](#) to share a link to an online survey for anyone that wasn't able to attend and share their thoughts on the day. If not on Facebook please call the school to request the link emailed to you.

### Our doors are open!

Children born in 2020 can now enrol for next year's kindergarten – please call admin on [6239 9126](tel:62399126) with any questions. Pre-kinder sessions will be commencing in Term 4 and are a key part of the transition into South Arm PS.

At this stage I'm fully expecting our kindergarten days to remain Mon-Wed.

Outside the kindergarten, I'd encourage any families considering a change of schools – or who might be looking to move into the district – to contact the school to arrange a time for a visit, or to talk more about what we offer in terms of our teaching and learning, social and emotional supports and the availability of before and after-school care.

### Trivia Night Fundraiser Friday 18 October

#### Jump online and book your spot!

Association members are hard at work putting together this event which will serve as its major fundraiser event for 2024.

#### Book via the QR code or the link below.

The \$40 ticket includes quiz entry and a two-course dinner at the South Arm RSL & Community Club. A huge raffle and other spot prizes will be up for grabs on the night!

Fund raised from the trivia night will go towards initiatives including additional swimming and water safety lessons for our early childhood students, and continuing to improve the range of playground equipment and experiences available to our students.

With thanks, *Stu Warren, Principal, South Arm Primary School* | [6239 9126](tel:62399126)

# The Tangara Trail

## A benchmark for new trails throughout Australia

As you drive around the Peninsula and nearby Clarence City Council areas of Acton Park, Sandford and Cambridge you can't miss the blue roadside signs indicating a trail entrance from the road.

The trail network, from Cambridge and Five Mile Beach to South Arm, was originally developed for the local horse riding community but is now also widely used by other nature lovers - walkers, dog walkers and mountain bikers.

Tangara Recreational Trails Inc. recently unveiled their new website, funded by Bulk Nutrients through their **Bulk Give Back** campaign. It's a magnificent website providing a wealth of information and photographs covering trail maps, events and facilities, trail usage etiquette and more.

Take a look at this recreational facility we are so fortunate to have winding its way through our beautiful landscape.

# St Barnabas - our community church

## More than a church...also a community organisation.

Discussion at The Community Church of St Barnabas Inc.'s AGM in August highlighted the need to grow the membership base so we can function effectively as such an organisation.

A membership base is crucial for every community organisation to survive and thrive, that includes St Barnabas. Everyone is welcome to join our Association, whether you hold religious beliefs or simply want to support our historic church and cemetery. Membership is just \$5 per year and forms with bank details are available here <https://stbarnabas.au/wp-content/uploads/2024/09/Application-Form.pdf>

**St Barnabas calendars** will be for sale as a major fund-raiser for the church. Local photographers have kindly given us some amazing photographs that truly showcase our beautiful peninsula. **The calendars will be \$15**, and all the money raised will go towards the important maintenance and upgrades of the church buildings and the cemetery. **To order contact Linda Roe on 0438 679 320.**

### Events for your diary...

**Sunday October 13th, 10.00am.** Our Special Pet Service. Bring along your pets, and enjoy a delicious morning tea afterwards. All welcome.

**Saturday November 30th 10.30am.** "Thank you" morning tea for our Volunteers. This is an opportunity to thank everyone for their dedicated care of our historic church and cemetery. All welcome.

**A celebration of singing and music.** (Mid-November date to be announced) Come and join in with a "Hymn-along". Just bring your voices and an enjoyment of singing. Afternoon tea will be provided. "Sing the cobwebs and your worries away".

**Once the better weather arrives (!!)** we hope to begin the project of painting the church hall (inside and outside). If you can spare a couple of hours to help - please watch for dates and times of working bees. "Many hands make light work."

- Linda Roe, St Barnabas

*All services start 10am. Everyone is always welcome.*

## Friends of the Bays

Friends of the Bays is a community group formed after news of a planned expansion of fish farming into northern Storm Bay. Petuna, a company first founded by members of the Rockliff family but now owned by Japanese and NZ companies has approval for a lease in the centre of Storm Bay, and are now seeking approval for another lease near Sloping Main.

Friends of the Bays (FotB) is concerned about adverse effects upon coastal communities and waterways, e.g. recreational fishing, water quality, wildlife, navigation, debris, and coastal views.

This region has many places that are great for seeing the aurora or the Milky Way, especially Goats Bluff. Fish farms are often brightly lit at night and will detract from the whole experience for everyone on the Peninsula who looks forward to our skies lighting up with dancing colours.

*If you share our concerns about salmon-farming in Storm Bay, consider becoming a member, or following our Facebook page. We are keen to alert coastal communities, from South Arm right round to White Beach, about the risk this region faces.*

## Buddhist Monks Visit South Arm

In June, a first time event occurred for South Arm. Two Buddhist monks from Jethawanarama Buddhist Monastery, Sri Lanka came to our village and went on alms round, collecting food for their lunch that day, a tradition dating back 2500 years to the time of the Buddha.

After a shared a lunch at the South Arm Community Centre one monk engaged with teenagers, while the other addressed the adults with a talk titled "The World is a Reflection of Your Mind". The monks will be returning on November 5th.

## South Arm Fire Brigade

Coming out of winter and heading into spring our focus turns to becoming aware of and preparing for the upcoming bushfire season. There are some basic steps that the Tasmania Fire Service (TFS) recommend for us to be Bushfire-Ready.

**Complete your bushfire plan - Prepare your property - Keep your family safe**

**Protect what you value this bushfire season - Bushfire, why risk it?**

**Prepare your home - create a defensible space around your home.**

- Always check weather forecasts before proceeding with a burn off.
- Register any burn with the TFS at [1800 000 699](tel:1800000699) - **it's easy**.
- In October, look for an announcement regarding permits required for burn offs over 1 cubic metre.
- Download the TasALERT (<https://alert.tas.gov.au/about-app>) to receive emergency alerts and important information from across TFS, TasPol and SES.

Have a happy and safe spring.

## Iron Pot Golf Club (IPGC) Update

Over recent months considerable work has been done to secure the future of our golf club and to improve the standard of the course.

**Long term tenure secured.** A lease with the South Arm RSL and Community Club, (land owner) ensures the course will continue to be operated by Golf Club members for the next 20 years and beyond. The future development, improvements, finances and membership will all continue to be the responsibility of a committee elected by the Iron Pot Golf Club members.

**Water.** A Memorandum of Understanding with South Arm Irrigation Scheme Pty Ltd has also been signed to connect IPGC to the Class A water being brought across the Derwent to the South Arm Peninsula. This water will significantly transform our golf course and its surrounding landscape, enhancing the attractive coastal location.

Completion of the cross-river pipeline is scheduled in the next few months to be followed by pipework north to Arm End and south to us. Water to our site should arrive by winter 2025 making IPGC and Arm End the only two courses in Tasmania connected to Class A water.

**Preparing for water.** Our course volunteers have been working with Dan Brown and his Arm End greenkeeping team on improving our greens. This work will continue in coming months, making improvements to our soil, greens and tees, irrigation system, and other areas of the course so we can take swift advantage of the water when it arrives.

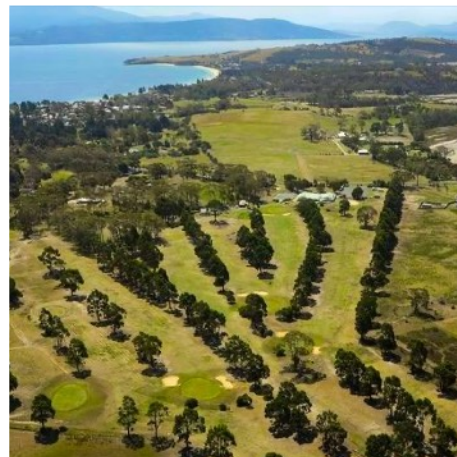

Arm End has provided, at no cost, all of the equipment, fertiliser, gypsum, seed etc. Dan has given his time and expertise to oversee and carry out the maintenance program and we extend our hearty thanks to him and his team for their support. Thanks also to our loyal club volunteers who answered calls to help. (See below for a link to more details on the maintenance program.)

**Rabbit control.** The Club has a 5 year permit for a rabbit control program and has been joined by some adjoining properties for more impact. Stage 1 is now complete and we hope to see a reduction in numbers.

**Membership.** With a very positive future ahead, it's the perfect time to become an Iron Pot Golf Club member. We expect an influx of new members once the benefits of water become clear and moving forward we'll impose a ceiling on membership. So, join now and beat the rush!

**Volunteering in the outdoors.** If you're interested in helping on the course, we'd love to hear from you. For memberships, volunteer information or if you'd like more information on the Club, please contact me.

## The South Arm Community Market

The team would like to thank the market community for their support and patience during our cancellation of the September market due to very bad weather.

Though it was disappointing, this was certainly not a decision that was made lightly.

We always love to have a wonderful market, but keeping everyone safe is our main priority.

We very much look forward to seeing you on October 6 and again on November 3.

## Nature Notes

### The elephant in the room garden: garden-escapee weeds!

**Weeds!** Plants that don't originate here, and which have few predators or diseases to control their spread, have the **potential to be highly invasive in our bushland and along beaches on the Peninsula.**

**Agapanthus** (*Agapanthus praecox* subsp. *orientalis*), 'Lily of the Nile', is native to Southern Africa. It is often seen in large clumps, lining residential driveways ... but that's not the only place it is appearing. It

is invading forest edges and open forest, tolerating a wide range of conditions from damp to very dry, and sun to semi-shade. Its dense, clumping roots (rhizomes) displace all other vegetation and smother native ground-covers, preventing the regeneration of shrubs and trees, and eliminating habitats for native fauna.

The first 'in the bush' collection (in 1973, on the edge of a suburban Adelaide conservation park) most likely 'escaped' from local gardens. Agapanthus is now emerging as a potential weed threat in parts of NSW, Victoria and WA; **in Tasmania it is considered to be worryingly 'naturalising'.** The leaves and roots are poisonous and can cause ulceration of the mouth in humans. Agapanthus is also toxic to dogs (particularly puppies), goats and cows; common symptoms of toxicity include mouth ulcers, vomiting and diarrhoea.

The blue, blue/purple or white flowers (November to February) produce leathery fruit containing up to 100 tiny black seeds. The seed is transported by soil movement, wind and waterways. Agapanthus can also spread by underground rhizome, and from the dumping of garden waste in bushland.

**Agapanthus is controllable** by removing flower heads before seed matures; physically removing the plants,

and not dumping them in bushland; planting sterile/low-fertility varieties, such as A. 'Snow Storm' or A. 'Black Pantha'; and by planting endemic species, such as 'Blue Flax Lily' (*Dianella* ssp.) or 'Spiny Mat-rush' (*Lomandra longifolia*), instead.
